INDEX OF SUBJECTS

Agrometeorology in Uganda—A review of methods (Rijks), 263

Agronomic efficiency of the N.I.A.E. mechanized tied ridge system of cultivation (Dagg and Macartney), 279

Bambara groundnut (*Voandzeia subterranea*) in Ghana, flowering, pollination and pod formation in (Doku), 41

β-radiation, estimation of changes in the water status of soils under field conditions from the attenuation of, by water held in absorbent nylon pads (Newbould, Mercer and Lay), 167

Black gram (*Phaseolus mungo*, Roxb.) in India, effects of growth regulators on fruiting and yield of (Mehrotra, Saxena, Roy and Nath), 339

Black pepper, a note on the grafting and anatomy of (Garner and Beakbane), 187

Broad beans (*Vicia faba* L.) agronomic aspects of, grown in the Sudan (El Saeed), 151

Cassava, analysis of a uniformity trial on (Afonja), 135

Castor bean, effects of nitrogen and spacing on, in sandy soils in Egypt (El-Hamidi, Moursi and Ahmed), 61

Chemical changes in some Nigerian vegetables during growth (Oke), 345

Chilotraea polychrysa (Meyr.) in Malaya, host preference and survival of the dark-headed rice stem borer (Kok), 235

Cocoa, comparison of ground cover plants during establishment of, on clear-felled land in Ghana (Opoku and Jordan), 77

Coffee berry disease in Kenya, screening fungicides for control of (Vermeulen), 255

Coffee trees, calculating the weight of young, from non-destructive observations (Wormer and Ngugi), 29

Corn production, Advances in principles and practises, by W. H. Pierre, S. A. Aldrich and W. P. Martin, reviewed by Walter Heydecker, 102

Cotton, and other annual crops on small farms in Uganda, fertilizer trials on (Stephens), 49; investigation of nitrogen fertilization of, by tissue analysis (Burhan and Babikir), 311; stomatal infiltration measurements as an indicator of the water requirement and timing of irrigation for (Ofir, Shmueli and Moreshet), 325

Crop nutrition, leaf-analysis as a diagnostic method and advisory aid in (Bould), 17

Evaporation in the tropics, evaluation and computation of potential (Rijks and Walker), 351

Fertilizer treatments, responses of grasses and legumes to, in Nigeria (Tewari), 87; *see also* Castor bean, Cotton, Pineapple, Sugarcane

Fertilizer trials on cotton and other annual crops on small farms in Uganda (Stephens), 49

Flowering, pollination and pod formation in bambara groundnut (*Voandzeia subterranea*) in Ghana (Doku), 41

Grasses and legumes, responses of, to fertilizer treatments in Nigeria (Tewari), 87

Ground cover plants, comparison of, during establishment of cocoa on clear-felled land in Ghana (Opoku and Jordan), 77

Groundnuts and sugar cane, the component analysis approach to the interpretation of plant analysis data from (Holland), 179

Growth analysis of perennial grasses in tropical India. I. Herbage growth in pure grass swards (Singh and Chatterjee), 117; II. Herbage growth in mixed grass/legume swards (Singh and Chatterjee), 127

Growth regulators, effects of, on fruiting and yield of black gram (*Phaseolus mungo*, Roxb.) in India (Mehrotra, Saxena, Roy and Nath), 339

Hormone treatment on pineapple in Swaziland, effects of spacing, nitrogen and (Dodson), 103

Host preference and survival of the dark-headed rice stem borer *Chilotraea polychrysa* (Meyr.) in Malaya (Kok), 235

Inoculation of peanuts by application of rhizobium suspension into the planting furrows (Schiffmann and Alper), 219

Leaf analysis as a diagnostic method and advisory aid in crop nutrition (Bould), 17

Legumes, nodulation of, in the Sudan: cross-inoculation groups and the associated rhizobium strains (Habish and Khairi), 227; nodulation of tropical. I. Specificity in the rhizobium symbiosis of *Leucaena leucocephala* (Trinick), 243; seasonal effects on the root nodulation of (Masefield), 335

Mango in Israel, a second stock-scion trial with (Oppenheimer), 209
Measuring scale for areas of cereal leaves (Owen), 275

Nitrogen fertilization of cotton by tissue analysis, investigation of (Burhan and Babikir), 311
Nodulation, of legumes in the Sudan: cross-inoculation groups and the associated rhizobium strains (Habish and Khairi), 227; of tropical legumes. I. Specificity in the rhizobium symbiosis of *Leucaena leucocephala* (Trinick), 243; seasonal effects on the root, of legumes (Masefield), 335
Nutrient status of some coconut soils in Ceylon, studies on the. 10. Minor soil series and conditions in the Chilaw district (Santhirasegaram), 161

Organic nitrogen fractions, the potential availability of, in some West Indian soils (Cornforth), 193

Peanut inoculation, effects of rhizobium-inoculum placement on (Schiffmann and Alper), 203; by application of rhizobium suspension into the planting furrows (Schiffmann and Alper), 219
Perennial grasses in tropical India, growth analysis of. I. Herbage growth in pure grass swards (Singh and Chatterjee), 117; II. Herbage growth in mixed grass/legume swards (Singh and Chatterjee), 127
Phaseolus mungo, Roxb. (black gram) in India, effects of growth regulators on fruiting and yield of (Mehrotra, Saxena, Roy and Nath), 339
Pineapple, effects of spacing, nitrogen and hormone treatment on, in Swaziland (Dodson), 103
Plant analysis data from groundnuts and sugar cane, the component analysis approach to the interpretation of (Holland), 179
Pod formation, flowering and pollination in bambara groundnut (*Voandzeia subterranea*) in Ghana (Doku), 41
Pollination, flowering and pod formation in bambara groundnut (*Voandzeia subterranea*) in Ghana (Doku), 41
Polythene, black, experiments on mulching sisal with, in Tanganyika (Hopkinson), 143

Rhizobium-inoculum placement, effects of, on peanut inoculation (Schiffmann and Alper), 203
Rhizobium suspension, inoculation of peanuts by application of, into the planting furrows (Schiffmann and Alper), 219
Rice stem borer (*Chilotraea polychrysa* (Meyr.)) in Malaya, host preference and survival of the dark-headed (Kok), 235

Sisal, experiments on mulching, with black polythene in Tanganyika (Hopkinson), 143
Soils, studies on the nutrient status of some coconut, in Ceylon. 10. Minor soil series and conditions in the Chilaw district (Santhirasegaram), 161; estimation of changes in the water status of, under field conditions from the attentuation of β-radiation by water held in absorbent nylon pads (Newbould, Mercer and Lay), 167; the potential availability of organic nitrogen fractions in some West Indian (Cornforth), 193
Sorghums, the relation between yield and date of heading of Nigerian (Curtis), 93
Stock-scion trial with mango in Israel, a second (Oppenheimer), 209
Stomatal infiltration measurements as an indicator of the water requirement and timing of irrigation for cotton (Ofir, Shmueli and Moreshet), 325
Sugarcane, long term experiments with fertilizers and manures, in India (Ambika Singh and Roysharma), 65; the component analysis approach to the interpretation of plant analysis data from groundnuts and (Holland), 179; water duty experiments with, on two soils in Natal (Thompson and De Robillard), 295

Tied ridge system of cultivation, the agronomic efficiency of the N.I.A.E. mechanized (Dagg and Macartney), 297

Uniformity trial on cassava, analysis of a (Afonja), 135

Vegetables, chemical changes in some Nigerian, during growth (Oke), 345
Vicia faba L. (broad beans) grown in the Sudan, agronomic aspects of (El Saeed), 151
Voandzeia subterranea (bambara groundnut) in Ghana, flowering, pollination and pod formation in (Doku), 41

Water duty experiments with sugarcane on the two soils in Natal (Thompson and De Robillard), 295
Water status of soils under field conditions from the attenuation of β-radiation by water held in absorbent nylon pads, estimation of changes in the (Newbould, Mercer and Lay), 167
Weed control, chemical, in tropical root and vegetable crops (Kasasian), 1

INDEX OF AUTHORS

AFONJA, BIYI. Analysis of a uniformity trial on cassava, 135
